ANNUAL REPORT  
Year Ending June 30, 1958  
of the  
DIVISION OF IMMIGRATION AND AMERICANIZATION  
of the  
DEPARTMENT OF EDUCATION

On June 30, 1958, the Division of Immigration and Americanization completed thirty-nine years as a part of the Department of Education. Since the Division is the successor to the Bureau of Immigration created by act of Legislature on May 25, 1917, the State work for the foreign born is forty-one years old.

The 42,647 services rendered clients during the past year showed an increase of 1,095 over last year. The increases were noted in the District Offices, except for Springfield where the District Agent had to work alone a great part of the year due to the illness of the Secretary in that office. Boston listed 26,159 services; Fall River, 3,911; Lawrence, 3,254; Springfield, 3,940 and Worcester, 5,383.

In January 1958, under the Alien Registration Act, 130,038 aliens registered in the Commonwealth, an increase of nearly 600 over the preceding year. Massachusetts ranks 7th in number of aliens in the United States of which there are 2,899,691. New York has the greatest number with 558,462 followed by California, Texas, Illinois, Michigan and New Jersey. The nationalities of aliens registered in 1958 in Massachusetts are:

Great Britain & Canada.....	40,333
Italy.....	16,833
Polish.....	11,962
Germany.....	5,738
USSR.....	4,642
Greece.....	4,152
Chinese.....	1,292
All Others.....	45,086

The Annual Report of the U.S. Immigration and Naturalization Service listed 11,260 aliens destined to Massachusetts for the fiscal year ending June 30, 1957. Statistics show that of the aliens coming to this State, Canada leads in number with those from Italy next, closely followed by those from the United Kingdom and then Germany, etc. We have about 1100 Hungarian Parolees in this State. We note among our clientele quite a number of Polish born persons who came to join their relatives in this state and many instances of families being reunited after long separations.

NATIONALITIES AND LOCALITIES OF CLIENTS

Of the fifty-five nationalities served, the Italian born clients, although many of them naturalized citizens, were largest in number of which there were 8,486. United States born persons are next in number with 5,565 with Canadians, 4,429; followed by Irish born and closely followed by Polish and Portuguese born clients with each near 2,700, with clients born in Germany, France and Great Britain next in number, with clients from practically every city or town in the Common-

wealth, since our offices are so located to cover the State.

### WELCOMING THE NEWCOMER

This Division continues to send welcome letters to persons destined to this State from abroad. The letter of welcome informs the newcomer of the services of the offices to help him in becoming assimilated to life in the United States. Many of the replies request information about schools and educational opportunities, as well as information on citizenship and reunion of relatives to come. In the past year it was noted that job opportunities for the newcomer were not as plentiful. Inquiries about employment opportunities were referred to proper sources. Our offices had personal contact with some 2,471 newcomers in the past year for various types of assistance.

### IMMIGRATION LEGISLATION OF 1957

Enactment of new legislation affects our work with aliens so that our immigration work with the clients was increased due especially to the enactment of Public Law 85-316 on September 11, 1957. This law made many important changes in the Immigration Statutes. Notable in this legislation was the granting of legitimate status to children born out of wedlock. Previously this child could not get a preferential quota status and in countries where there was a backlog of registrations such a child registered in the nonpreference category faced a wait of many years. Now the law permits the mother of such a child to petition and grants the child nonquota status if under twenty-one years of age if the mother is a citizen, or preferential status in the third preference category if she is an alien. Several mothers have been united with their children since the enactment of this law. The law also grants nonquota status to legally adopted children under fourteen years of age if the child has been in the legal custody of the parents for two years. This law affected several of our recently arrived families from Italy in which cases the child had been legally adopted abroad, had been in their legal custody and the foster parents had been able to come to the United States under the Refugee Act but were not permitted to bring their adopted child with them. In one of our cases, such a child had been registered on the quota since 1950 and only the enactment of this legislation reunited the family.

This law permits to come to the United States through June 30, 1959 orphans or adopted children under fourteen years of age. In some countries, adoption is possible abroad by power of attorney, etc. We assisted in making further documents, affidavits of support, etc., in cases where Greek children had been adopted abroad and several youngsters are happy in their new homes in the United States.

Another feature of the law permits relatives, even though they had been certified to have tuberculosis, to join their parents and spouses. We had several cases where the wife had come to the United States with children but had to leave the husband behind because he had been unable to comply with the health regulations. The law permits the granting of a waiver of requirements in such cases, provided arrangements are made for the alien to enter, immediately after arrival, some approved hospital for medical treatment. In a number of these cases, after admission to the hospital and short treatment, the relative was released as not requiring further hospitalization.

Also, the Attorney General has been given discretionary powers in granting a waiver of the requirements in certain arrest records. This helped in cases where the alien abroad had been found guilty on several occasions of offenses considered having moral turpitude. One case in question was that of a wife of a returning GI. During the war she had been found guilty on several occasions of theft. Further investigation showed that the thefts had involved a pair of gloves and in another instance a pair of shoes from a roommate. This pair was reunited under the law.

This law also permits adjustment in cases of applicants who had entered the United States alleging that they were of some nationality other than that of their birth. The law provides that such persons can become naturalized if they can establish to the satisfaction of the United States Attorney General that such allegations were made because of fear of return to Russia. This affected a number of our clients who had been born in Russia and claimed Polish birth because in Germany where they were Displaced Persons they feared repatriation to the country of their birth and escape. Two such clients have already been naturalized.

Aliens classified in the first preference category, those with skills urgently needed in the United States, if their petitions were approved before July 1, 1957, were granted nonquota status. We assisted in 362 change of status cases, a good number of them in this special skilled category. In cases where the aliens had been born in such countries as China, Spain, India where there was a wait in the quota, the situation is eased now by permission to adjust their status without going to Canada under "preexamination privileges".

This law also permits some 18,656 refugees to come from countries due to fear of persecution on account of political or religious belief and who have fled from Communist controlled countries. We are continuing in making affidavits of support and cooperating with agencies concerned.

Most notable of all in the law was the removal of mortgages on quotas which were established because of the Displaced Persons Act of 1948 and 1950. The removal of such mortgages made the quotas from such countries as Poland, Latvia, Lithuania, Czechoslovakia and Russia larger so that it was noted that preferential category quota relatives no longer had to wait long periods for their turns in the quota. In fact, for the first time in many years, the Czechoslovak and Russian quotas in the nonpreference category are currently available.

#### CITIZENSHIP RULINGS

In the laws of citizenship, an important decision was rendered by the Supreme Court which affected American born persons who had military service in foreign countries. Many American born citizens living abroad since childhood had been compelled to serve the countries of their residence. Formerly they were ruled to have lost their citizenship by such military service unless a protest was filed at the time of their induction and was on record. Several of our applicants had the cases of their relatives reviewed and we have noted the arrival into the United States as citizens of two such persons. The law of Derivative Citizenship has also been amended so that under certain conditions a child who was formerly required to come to the United States before the age of sixteen in order to derive United States citizenship can now come to the United States as late as his twenty-third birthday.

## NEWEST IMMIGRATION LEGISLATION

Newest legislation effective after July 1, 1958 permitting adjustment of status for Hungarians in the United States from Parolee to permanent residents after completion of two years residence, and the change in the law allowing persons to have their arrival registered in the United States by proving residence only since 1940 instead of 1924, will create more work.

## CITIZENSHIP

Citizenship applicants were fewer than last year. 5,548 persons were naturalized in this state in the past year. We circularized a letter of offer of assistance to about 1000 applicants who had previously applied for naturalization and either had failed in examinations or had postponed further action. The response was about 25% requesting such assistance. Many had moved and left no forwarding address. Our offices filled 2,548 applications for naturalization. We completed 674 applications to obtain Certificates of Citizenship for persons who had derived citizenship either through their parents or through marriage. We gave to each applicant for citizenship our booklet to help him prepare for naturalization examination. Most of the persons applying for naturalization are comparatively of newcomer category, that is, those who came to the United States since about 1948. Those whom we find need assistance in being able to comply with the requirements are referred to schools where classes in citizenship are held.

This being election year, many persons who derive citizenship and who have moved from one city to another faced new registration and it is usually necessary in such cases for the persons to apply for certificates of citizenship in order to register to vote.

Although "first papers" are no longer required, our offices filled 288 such applications last year because applicants needed this Declaration of Intention either to go into the Army, to join unions, to become Registered Nurses or to take the Medical Board examinations.

## COOPERATION WITH OTHER AGENCIES

The Division cooperates with social agencies, public and private. We have referrals from the Division of Public Welfare, Registrar of Voters and Social Security offices, as well as other State offices to give special technical information on citizenship and immigration problems. We have many contacts with the various sponsoring agencies working with refugees and our relations have been most cooperative and mutually helpful. Close contact and constant cooperative relationship with the Adult Civic Education Groups of the Commonwealth are maintained and, as a member of the Committee for the Foreign Born of the United Community Services, we participate in meetings and problems of the foreign born. Relations with the Federal Immigration and Naturalization Service continue with cooperation and assistance.

The increasing numbers of calls for our services in our offices without publicity or advertising of our work point out how successful have been the efforts of

the Division of Immigration and Americanization in fulfilling its duties as designated in the law establishing this Division, which are as follows:

"The Division of Immigration and Americanization shall employ such methods, consistent with law, as in its judgment will tend to bring into sympathetic and mutually helpful relations the Commonwealth and its residents of foreign origin, protect immigrants from exploitation and abuse, stimulate their acquisition and mastery of English, develop their understanding of American government, institutions and ideals and generally promote their assimilation and naturalization."

#### FALL RIVER OFFICE

At the closing of the fiscal year on June 30, 1958, our records show that a total of 3,911 persons requested advice and assistance in problems dealing with citizenship, immigration and other services.

Clients from thirty-five different localities called at this office for some type of service and constituted a nationality makeup of forty-three different nationalities. An increase of 364 services were rendered over the previous fiscal year which shows that citizenship and immigration problems are on the increase in this District due to the closing of the United States Immigration and Naturalization Service office in New Bedford, Massachusetts.

Citizenship information and Immigration information again led the field. A total of 300 petitions for naturalization were completed with 72 applications for certificates of citizenship. A total of 214 immigration applications were completed and forwarded to the Immigration and Naturalization Service at Boston, Massachusetts for adjudication. A total of 151 Affidavits of Support were completed as required by the American Consuls abroad in the issuing of immigration visas to clients.

Change of status in this locality amounted to a total of 18, in these cases a good deal of work is required.

As usual, Fall River leads the list in clients with New Bedford running a close second. It must be noted that this agent visits New Bedford only one day a week and a heavy workload is anticipated and handled each and every week. It must be further noted that 1,225 services were rendered to clients in New Bedford and this excludes the greater New Bedford area which would bring the total to a greater amount.

This office has worked in close alliance with the Family Service Units in Fall River and New Bedford; Public Welfare Departments and Adult Education Classes in both cities.

On June 12, 1958, this Agent was a speaker at the closing exercises of the Adult Education Classes, bringing greetings from the Division of Immigration and Americanization.

On March 26, 1958, he was speaker before the Education Committee of the First Unitarian Church at New Bedford, Massachusetts.

For the past fiscal year, the Fall River Office can look with pride in its program of sympathetic and mutually helpful assistance to the Commonwealth and its residents of foreign origin in this area.

#### LAWRENCE OFFICE

The Lawrence Office statistics for this fiscal year reached the figure of 3,254 services, an increase over the 1957 fiscal year of 389, and 465 over 1956. Efforts were made by the agent in the direction of public relations, and for an increase in services in this area. In each and every instance, the contact brought an increased interest in the Division. This agent took over the work of this office on February 1, 1958 on the retirement of the former agent.

The attendance of the agent at the Superior Court, Lawrence, naturalization sessions March 7 and June 12, marked the initial contact. The agent was also invited as Principal Speaker at the graduation exercises of evening school attendants, at the Lawrence High School, April 2nd. This included the Adult Alien groups attending evening classes. On April 10th she attended the Massachusetts Conference on Social Work in Bedford. A visit to Lowell to render immigration and citizenship service to those residents was made by the agent on May 21st. Attendance of the Dinner-Meeting at the International Institute on May 28th, as Board Member, was made by the agent. June 3rd marked the luncheon of the Greater Lawrence Social Agencies held at Merrimack College, North Andover.

The personal appearance of the agent at the naturalization session afforded an opportunity to meet with the court personnel and the patriotic groups such as the D.A.R. and the American Legion representatives meeting the new citizens, as well as the Judge, and the persons whom the Division assisted.

The appointment of the agent as Board Member of the local International Institute meant working in closer cooperation with the Executive Director and the immigration problems of the organization were referred here. Hungarians in particular sought information as to how to get their relatives here from abroad. In some instances, they sought information as to how to enter the Army. Their "parole status" limited their benefits and opportunities. No doubt the new legislation, Public Law 85-559 of July 25, 1958 will help this group to adjust their parole status, so that they may share in the benefits of other resident aliens.

Attending the luncheon of Greater Lawrence Social Agencies at Merrimack College and the Massachusetts Conference of Social Work at Bedford, was helpful as the agent participated with other agencies; local and out-of-town, in a community effort in handling problems of the public. Meeting department and organization heads also resulted in some referrals to this Division.

Thirteen change of status cases have been initiated since the agent's arrival here, February 1st. Of the thirteen, five have been completed and eight are pending. A great deal of telephone calls for United States passport information and international travel vaccination requirements prompted the agent to restore the United States application service which had somehow fallen into decline. Forms for

United States passports were obtained and other pertinent booklets and data for information. The passport agency of Boston has been most cooperative.

This Service, however small, is rewarding in that it promotes good public relations by word of mouth. Many travel agents and lawyers call on the Division for information and make referrals wherever possible.

Naturalization is not an over-active service. Greater Lawrence, (includes Andover, North Andover, Methuen), has about 3000 aliens; naturalization at the Superior Court, Lawrence reaches the figure of about 200 per year, having four sessions a year. This includes persons from Greater Lawrence, Haverhill and a few other small towns of Essex County. Salem, of course, has its naturalization sessions also. Our office completed 108 applications for naturalization last year.

The Division enjoys the closest relations and cooperation with the nearby educational and religious institutions of all denominations and hospitals, as well as patriotic organizations, such as the D.A.R. and the American Legion, the Police Departments, libraries, church and civic groups. The work of the Division is well known and those who had assistance come back again.

#### SPRINGFIELD OFFICE

During the past fiscal year 3,940 persons were recorded as having received services at the Springfield Office.

Of this number, 82% were personally handled by the District Agent. During the last six months of the year the District Agent was called upon to perform all of the duties necessary to maintain the office. This was due to the resignation of the Clerk-Stenographer and the difficulty in trying to obtain a replacement.

The statistics show that people came to us from 49 communities in the four Western Counties of Massachusetts. We had contact with 47 former residents of the State residing in other parts of the country.

More than 40 nationalities were recorded during the past year. Native born citizens headed the list with citizens of Canada, Italy, Poland, Great Britain, Germany, Ireland and Greece making up the list of major nationalities.

Letters of Welcome were sent to 295 immigrants who entered the United States during the year destined to this area.

Although applications to become citizens were fewer this year, we devoted a great deal of time rendering decisions on the citizenship status of individuals. Many of these requests came to us from the Recruiting Office of the various branches of our Armed Forces; from industries, in connection with security checks of their employees.

With frequent assignment of Air Force Personnel of S.A.C. at Westover Air Force Base, we handled many cases of prompt naturalization of the wives of these men who wished to accompany their husbands overseas.

Once again Immigration topped the list of services given to applicants who wished to sponsor relatives coming to the United States to live, to visit and others to adjust their status.

Because of the recession, we had many residents, citizens of Canada and Ireland, who came to us for advice about adjusting their problems created by unemployment. Most of them sought information about returning to their homeland and to remain until the employment conditions were improved. All of them stated that they did not wish to become a burden to relatives, their sponsors or the communities where they lived.

Again this past year we handled a case of a gentleman from Czechoslovakia, assisting him to adjust his status to that of a permanent resident under preexamination. He is one of those who escaped from Germany in a home-made tank. He was sent to the United States as a visitor with the aid of the "Crusade for Freedom".

Near the close of the year, the Chairman, Members of the Board and the Supervisor of the Division made a visit to the Springfield Office to check the quarters we now occupy and to look over the proposed sight of the "Little State House" at Springfield, which is to house all State Offices.

#### WORCESTER OFFICE

The fiscal year 1958 closed with the Worcester Office recording 5,383 services to clients. This is an increase of 1,297 services over the previous year's total of 4,086. This is the first year of work for this agent in this office.

During the year, this office assisted individuals representing over 47 nationalities residing in 63 communities throughout the Commonwealth.

Answering inquiries pertaining to immigration headed the list of services rendered, while information regarding citizenship was the second most frequent service given. It is interesting to note that the boom in tourist travel in 1957-58 was reflected in this office by a marked increase in requests for travel information.

Of the nationalities served, Italy was the country most frequently represented, followed by Canadian born individuals. Native born Americans and persons born in Poland came to us in about equal numbers. Ireland, Germany, Great Britain, Lithuania and Syria and Lebanon were also well represented.

In reference to the localities served, 78% of our clients during the year were residents of Worcester.

During the last three months of the fiscal year, this office experimented in publicizing the benefits to be derived from naturalization via the local newspaper, the radio and through individually written letters. Our efforts were rewarded by an awakened interest in citizenship on the part of many aliens in this area.

We have continued to maintain good relations with the various local, state and federal agencies, as well as with the several voluntary agencies, institutions and schools in this area.

Beside supplying information, filling forms, conducting correspondence, interpreting and making translations in matters pertaining to immigration, citizenship and travel, this office performed a variety of other functions during the year ending June 30, 1958.

Approximately 275 letters of welcome were sent to newly arrived immigrants in this area.

We contacted all the supervisors and teachers in citizenship and Adult Education in Worcester and in the surrounding towns, offering our assistance in all matters pertaining to immigration and naturalization.

Many newly arrived immigrants were assisted by this office in finding employment by referrals to appropriate sources.

During the year, this Agent attended Community Chest meetings, talked on immigration before a church group in Millbury, Massachusetts and gave a talk to the citizenship class in Gilbertville, Massachusetts.

We have counselled many new arrivals to this country regarding educational opportunities, employment possibilities, recreational facilities and have discussed their personal problems with them, thus affording them an opportunity to adjust more rapidly to their new environment and to the American way of living.
